

Red Knights™

MotorCycle Club

Fellow Firefighters

If you have a motorcycle and enjoy the company of other firefighters who ride, please let me know.

The Red Knights Motorcycle Club (RKMC), is an international association of motorcyclists who have a fire department connection. Our membership comes from active as well as retired firefighters, volunteers as well as careers, along with individuals who have a special connection to the fire service. There are currently two chapters in PEI, a number of others in our neighbouring provinces, many throughout Canada, and many more in the US and around the globe. The first Chapter on PEI wasn't formed until 2006 so we are still trying to get the word out to all fire departments (the second Chapter was formed just last year and there is now some discussion about a possible third Chapter).

Chapter 1 rides every Thursday evening, leaving from Charlottetown Station 2 on St. Peters Road (formerly Sherwood Fire Department) at 7:00 p.m. Other rides come up through the season depending on weather, activities, and availability. You may also find us at bike shows, show-and-shines, parades, fire prevention activities, and the like. For the most part though, we just like to ride.

If you also like to get out for a ride, let me know. Non-members are always welcome to join us on our Thursday evening rides.

Ride Safe

Scott Ryan, President
